**MINERALS, PIGMENTS & METALS DIVISION**

PFIZER INC., 2001 LYNCH AVENUE, EAST ST. LOUIS, ILLINOIS 62201

618-271-4700

December 19, 1984

U. S. Environmental Protection Agency  
 Region V  
 230 South Dearborn  
 Chicago, IL 60604

Attention: Mr. Valdas V. Adamkus, Regional Administrator

Gentlemen:

Please note that from and after January 1, 1985, certain facilities of the Minerals, Pigments & Metals Division of Pfizer Inc. will be separately incorporated in a wholly-owned Delaware subsidiary named Pfizer Pigments Inc. The facilities included are the iron oxide pigment and magnetic particle producing plants in Easton, Pennsylvania; East St. Louis, Illinois; Valparaiso, Indiana; and Emeryville, California; a chrome oxide pigment plant in Slatington, Pennsylvania; a baryte mining operation in Potosi, Missouri; and a portion of the research, marketing, and sales operations also located in Easton, Pennsylvania.

This administrative reorganization will not affect the nature of the business or the ultimate responsibility of Pfizer Inc. for environmental compliance. Accordingly, we assume that permits made by or issued to Pfizer Inc., MPM Division, should be of continued validity for Pfizer Pigments Inc. until renewed or updated.

Therefore, from this date forward all new applications, renewals, insurance assurity bonds, et al will be in the new name, Pfizer Pigments Inc. If you require any further information or if you disagree with our proposed course of action, please let us know.

Sincerely,

Roger E. Rader  
 Plant Manager
